

We've officially launched the Product!

**NEW
PRODUCT**

Challenge for Standardization of Next-Generation Motors

Standard AC Motor

KII Series

Single-Phase Induction Motor

KIIS Series

Three-Phase High-Efficiency Induction Motor

Technical Information

High performance motor that lasts longer.

Long Life

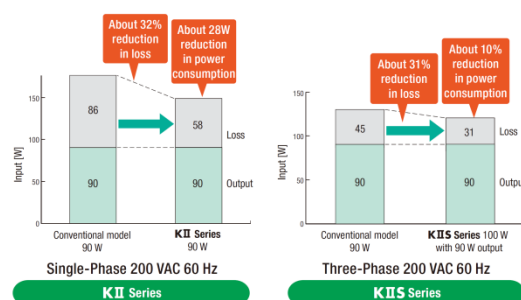

The Gearhead ball bearing diameter has increased, resulting in doubling the life of the gearhead (10,000 hours compared to the rated life of 5,000 hours of conventional gearheads). Performing maintenance has decreased as a result of the longer life.

The rated life has doubled compared to conventional products.

High Efficiency

The optimal magnetic design and dedicated parts have dramatically reduced losses, achieving high efficiency. Compared with the conventional model under the same conditions, this model needs less power, contributing to a labor-saving device.

Demo Videos

2015 Technical Seminars Schedule

- 18 March - AC Seminars
- 15 April - Brushless Seminars
- 20 May - Stepping motor Seminar
- 17 June - Troubleshooting Seminar
