**Technical Information**

**Differences comparing conventional AC motors with KII Series**

**High Permissible Torque**

The permissible torque is twice that of conventional models

Increase in the strength of the gear raises the maximum permissible torque to twice the torque when compared with conventional models. A torque range that was unavailable can now be used.

● Gearhead output (permissible) torque for 25 W

**KII Series**

● Gearhead output (permissible) torque for 100 W

**KIIS Series**

**Silent**

Reduced gear contact noise  
 by 6 dB

Noises from motor/gearhead contact have been reduced by 6 dB compared with the conventional standard motor.

● Comparison of the noise level in the 80 mm frame size type
